

## Chapter 5; Introduction

This chapter provides photocopiable Worksheets and Teachers Notes, which deal with the 9 main topics covered within the EMAS project Audits and Action Plans. They should be used to allow full curriculum enrichment with environmental issues, not only within your EMAS Club, but across the whole school. This is only a small selection of the worksheets available however, and for a full list of our downloadable resources please see our website [www.emasinschools.org.uk](http://www.emasinschools.org.uk). There is also a large selection of games and extra curricular activity ideas on the website.

To use this Chapter, look carefully at the Curriculum Links Tables at the beginning of each topic, to decide which worksheet is most suitable, then read the accompanying Teachers Notes and let your class have fun.

Please note that these resources can be photocopied for use within school and the education of the wider community, but must not be reproduced or used for commercial purposes.
