

## Pupils' Worksheet B2

### Monitoring - Reading Meters

Name: \_\_\_\_\_

Class: \_\_\_\_\_

Every building with electricity has an electric meter, this shows how much electricity is being used. By writing down a daily total, you can chart changes in your schools energy use.

Electric Meter Dials

#### Activity

Record the school meter reading at the same time every day for a week. At the end of the week compile a table, using Excel, to show how many kilowatt-hours have been used each day.
