

Pupils' Worksheet C1

The Importance of Not Wasting Water

Name: _____

Class: _____

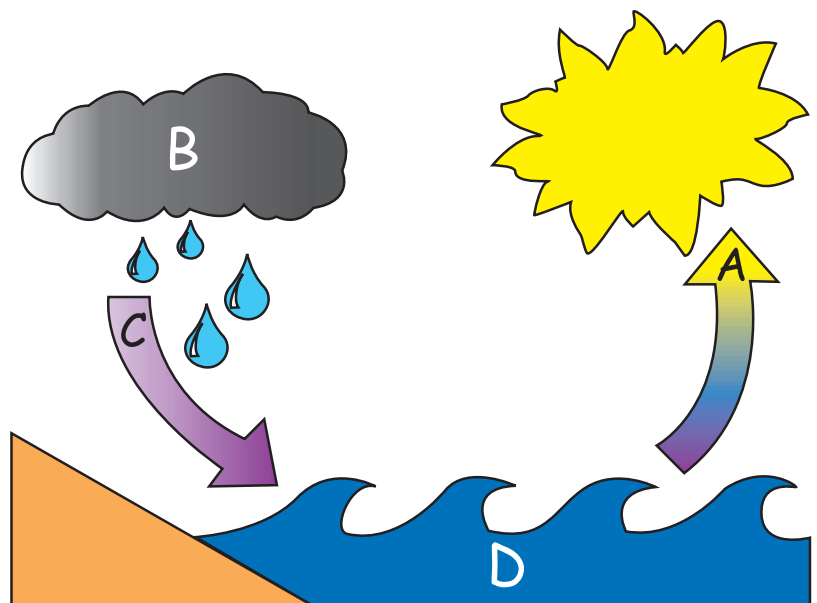

Imagine a glass of water;
How old do you think the water is?

The water in your glass may have fallen from the sky as rain just last week, but the water may have been around almost as long as the earth has.

Water is extremely important, every living thing on earth requires water to survive.

The earth has a limited amount of water. The water keeps going around and around and around in what we call the 'Water Cycle'.

A - Evaporation

B - Condensation

C - Precipitation

D - Collection
