

## Pupils' Worksheet E1

### Hand Count Tally

Name: \_\_\_\_\_

Class: \_\_\_\_\_

It is far better for the environment, and your health, if you walk to school. If you meet up with a friend it also makes it more fun than being stuck in a car. If it's raining and you don't want to walk, then a bus is a good second option as it still means there are less vehicles on the road.

#### Activity

A good way of seeing how pupils get to school is through a survey, using a hand count tally. Design a survey that a teacher can use when reading the register to record how pupils get to school. The teachers will want to do this everyday for a week to ensure that the results are accurate.

The best designs will be used by the teachers.

**GOOD LUCK**
