

## Pupils' Worksheet F3

### Stock Room Survey

Now use the following chart to look at how much paper you use in one month.

Before you start you need to write down all the different types of paper you looked at before and then at the end of each month go to your stock room and write down the number of different packs of paper.

This might change from 80g, but if it does just write down what the new weight is.

Type of Paper	Month 1	Month 2	Month 3	Month 4	Month 5	Month 6
	No. of 80g Packs	No. of 80g Packs	No. of 80g Packs	No. of 80g Packs	No. of 80g Packs	No. of 80g Packs
<u>Example:</u> Photocopy Paper	5	4	0	2	6	7
