

## Pupils' Worksheet G1

### How do Rules and Laws Effect Me?

#### Activity 1:

Around school there are probably a few things that you don't like the look of, or which you think might have a bad effect on the environment. This could be looking at issues such as litter and rubbish around school.

Does your school have a set of rules that you have to follow? Are there any rules, which tell you things about the environment?

Discuss possible ideas you could include in your school rules and write an argument for including them into the school plan.
